

Thank you for your interest in ARVA and its eco-friendly products. Your decision to invest in HyLite Induction & LED Lighting will be the best decision you ever make when it comes to lighting. ARVA's HyLite lights reduce your energy consumption anywhere from 50% to 90%, and can last up to 100,000 hours. With HyLite lighting, you'll increase your financial and energy savings while significantly reducing your electricity cost and environmental impact.

ARVA, LLC, proposes an installation of HyLite LED and HyLite Induction Lighting to replace the current lighting systems of Gentry Chevy, Buick, GMC. Investing in HyLite Lighting offers significant energy savings and reduced operating expenses, while increasing the quality of light. Below is a brief overview of the proposed installation and the cost and energy benefits associated with the lighting upgrade.

HyLite Replacements
